RE: Adjudication, Green River, Daggett, Summit & Uintah Counties  
(Pot Creek Priority Schedule)

The priority of the West Betts Cove Reservoir and the South Betts Cove Reservoir owned by Carl E. Searle is listed as 1886, but this date is questionable. A meeting with Carl E. Searle is in order to determine this priority. The water under this right is used for stockwatering purposes only.

The priority of the Pot Creek Ditch and lower Pot Creek Ditch owned by Robert, Neldon and Oral Shiner is also undetermined. This priority is believed to be prior to 1903, but more evidence is needed to establish the exact date.

Upon re-examination of the Crouse Creek Ranch owned by Lee C. Watson, an additional 12.28 acres of irrigated land has been located. Therefore, the lands irrigated by the Crouse Creek Ranch should be changed from 200.09 to 212.37 acres.

The right under Application 12327, owned by Zeph Calder is being used to irrigate lands not listed in the present priority schedule. The following is a breakdown of the lands irrigated from this source:

<u>Lands owned by:</u>	<u>Acres:</u>
Zeph Calder	399.01
Lucille H. Calder	135.93
Leo Calder	18.64
Henry Ralph Siddoway	7.93
Rulon S. Hacking	1.09
State of Utah	84.74
United States of America	5.58
TOTAL	652.92 Acres

There is a total of 1435.54 acres of irrigated land on the Pot Creek system excluding the natural meadows and meadows formed by underground seepage from stockwatering reservoirs. Of this 1435.54 acres, 1276.55 are in Utah and 158.99 are in Colorado, or 89% in Utah and 11% in Colorado.
